## *Foreword*

### PROCLAMATION!

By the orders of friends and students of the Hagerstown High School the Senior Class of nineteen hundred and forty one is able to present this super edition of the annual for your pleasure that you may recall, as you turn the pages, familiar scenes and events of "School Days" in Hagerstown.

## *Dedication*

ALIDA E. MORRIS

7017011

We, the Senior Class of Nineteen hundred and forty-one, sincerely dedicate this Epitome to Miss Alida E. Morris for the thirty-five years of service she has given directly to the cause of education. We hope in this way to show our appreciation for her efforts to bring to us, as students, the precepts of English and Latin, and the understanding of true character through her own example.

## *Class Creed*

I believe in education as a fellowship of minds to develop character, to diffuse culture, to advance truth and justice, to encourage chivalry, and to promote scholarship in the service of God and man; I will strive to make real these ideals in my own daily life.

## *Administration*

THE ORGANIZATION OF THE  
SCHOOL IS CONSTRUCTED  
ECONOMICALLY AND

CLARENCE STOUT

ALBERT BLAND

These three men guide the destiny of our school; president of the school board, Mr. Clarence Stout, treasurer, Mr. A l b e r t Bland, who is also the township trustee and the newest member, Mr. Daniel Teetor, secretary of the school board.

DANIEL TEETOR

## *School Board*

We owe a tribute to those men who continually strive toward the goal of a modern school with its conveniences and opportunities that we, the present generation, may be prepared to seek higher goals for the betterment of mankind. These men are the members of our school board and our superintendent.

A new music room, stoker, provision for hot water, and storm doors for the grade school building and the additional work done toward the completion of the ball field and track have all helped partially for them to realize their goal of a modernized school.

We wish them even greater progress and success for the coming years!

## *Invictus*

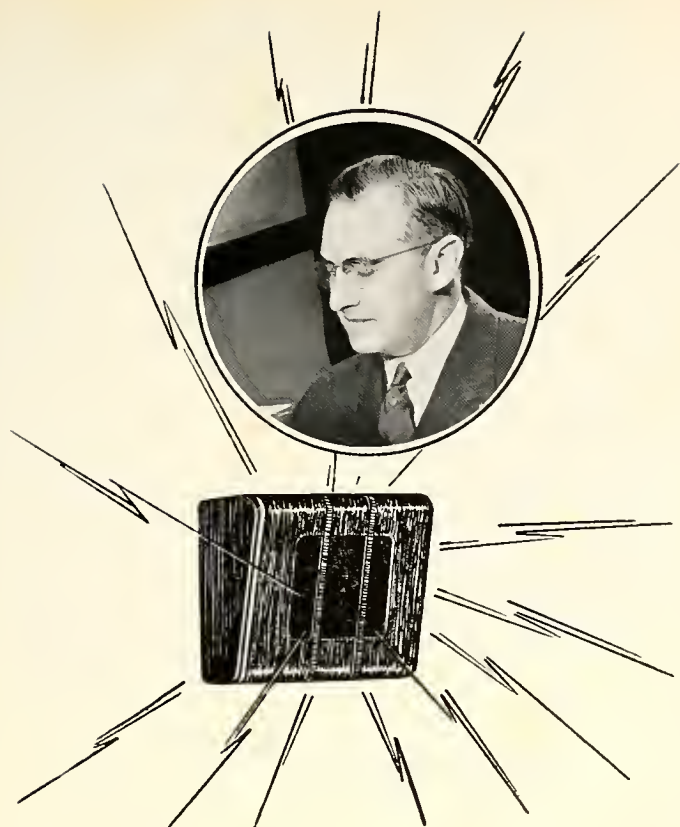

Out of the night that covers me,  
Black as the pit from pole to pole,  
I thank whatever gods may be  
For my unconquerable soul.

In the fell clutch of circumstance  
I have not winced nor cried aloud,  
Under the bludgeonings of chance  
My head is bloody but unbowed.

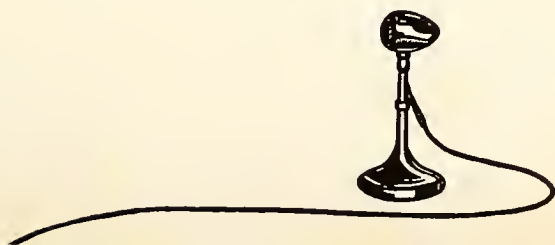

Beyond this place of wrath and tears  
Looms but this horror of the shade,  
And yet the menace of the years  
Finds, and shall find me unafraid.

It matters not how straight the gate,  
How charged with punishments the scroll  
*I am the master of my fate*  
*I am the captain of my soul.*

Girl Reserves develop a girl's personality and character through an interest in some worth while activity, a desire to be of service and an eagerness to make her contribution to the world of which she finds herself a part. They gave their Mother's a tea in October and a banquet in December. The G. R. and Hi-Y had a party together at the Country Club. The Girl Reserves also gave a party in February. All school news and activities are reported by the Exponent Staff. They must draw up each article, type it for publication, and present it to the printer on time. They have done very well in contributing a part of their time to the school write-ups published in the Hagerstown paper.

## Exponent - - - Red Cross

The Junior Red Cross has been particularly active this year due to the war in Europe. This organization has continually been under the faithful and diligent leadership of Miss Alida E. Morris. One of Hagerstown's members, Angeline Hays was county president. Many service projects were carried out.

The librarians are helpful and dependable. A knowledge of types of books and their library positions is necessary for a librarian to be of value to the students. She must be business like and willing to use her time for others.

## *Librarian - - - Art*

The art department is one of the most interesting and valuable assets of the school, and the students have acquired much ability under the supervision of Miss Catherine Ferry.

The course covers many interesting phases of art. Among these are: profile pictures, animal pictures, scenes, and other types of art work. They also re-decorated the art room as a project.

Credit should be given to the art department for their splendid cooperation with other school departments.

A high school course in commercial work does not fit anyone for a place of some high business official, but it does give him the principles of office work. Simple bookkeeping, taking letters in shorthand, transcribing them from notes or from a dictating machine, and typing reports and letters are learned. Thus a high school commercial course gives a boy or a girl a good beginning.

## Commercial - - - Shop

To learn to design, to construct and to repair is the business of the students enrolled in general shop.

They construct many useful articles in the shop. If you were to pass through this department, you would find noise a by-product, as they work on their many different projects. They also make much of their own machinery, which they use with a large degree of success.

The answers that men have found, the organized knowledge they have acquired by observation, and reasoning make up what we call science. The truly scientific person never jumps at a conclusion. He works from his knowledge of the universal law of cause and effect. Comfort is increased, health is improved and living standards are higher as result of the advancements from science.

## *Home Economics - - - Girls 4-H*

---

The field of home economics is today much broader than ever before. The home economics course holds as its purpose not only teaching girls the principals of cooking and sewing, but also teaching them the principals involved in home-making—which indeed needs much greater knowledge than mere cooking and sewing.

Membership in the 4-H club is good experience for any girl. The development of Head, Heart, Hand, and Health is an asset to everyone especially, a girl, desiring to make a home.

## Milk Quality and Milk Safety Begins on the Farm

To have the highest available amount of minerals, vitamins, proteins, sugar and fats, it is essential to feed the cow a proper balanced ration in order that there is no deficiency in the milk itself. This is carefully done on Spring Lake Farms. Having our own cows, modern barn and equipment, under one management and handled by competent men, enables us to give you unsurpassed quality and service.

# The Sun Always Follows the Storm

TO YOU, who are being graduated, the world which you are about to enter may look dark at times . . . but here in Hagerstown—here in America—here in the land of opportunity, the barometer of optimism never falls.

That's why Hoosiers always outsize every storm . . . knowing, ever knowing that no matter how dark the clouds, the sun will shine again.

The sun always follows the storm.

Whatever you do, wherever you go, always be a good sailor. The world needs good sailors today. It needs young men and women determined to prove their salt in rough seas or calm. The good sailor never stands around with his hands in his pockets. He does

things. The good sailor never quarrels with his oars—or with his fellow mariners. He goes places. The good sailor never counts on luck alone to pull him through the storms of life. He rows for himself.

We of Perfect Circle are proud of you, indeed. In fact, we have a particularly warm spot in our hearts for Hagerstown's leaders of tomorrow . . . for many of your parents, your relatives, your friends help sail the good ship Perfect Circle.

THE PERFECT CIRCLE COMPANY

## "To Thine Own Self Be True"

"And these few precepts in thy memory  
Look thou character. Give thy thought no tongue,  
Nor any unproportion'd thought his act.  
Be thou familiar, but by no means vulgar:  
The friends thou hast, and their adoption tried,  
Grapple them to thy soul with hoops of steel;  
But do not dull thy palm with entertainment  
Of each new-hatch'd unfledg'd comrade. Beware  
Of entrance to a quarrel; but, being in,  
Bear't, that the opposer may beware of thee.  
Give every man thine ear, but few thy voice;  
Take each man's censure, but reserve thy judgment.  
Costly thy habit as thy purse can buy,  
But not express'd in fancy; rich, not gaudy:  
For the apparel oft proclaims the man;  
And they in France, of the best rank and station,  
Are of a most select and generous choice in that.  
Neither a borrower, nor a lender be;  
For loan oft loses both itself and friend,  
And borrowing dulls the edge of husbandry.  
This above all,—to thine ownself be true;  
Thou canst not then be false to any man.  
Farewell: my blessing season this in thee!"

From Hamlet by William Shakespeare
